

Job Title:	Product Specialist – Envisional
Department:	Analysis & Consultancy Department, Envisional
Salary:	Disclosed upon application

Introduction

Group NBT plc is a leading provider of domain names and Internet-related services. Established in 1995, the company has registered hundreds of thousands of domain names and hosts thousands of websites. With a wide range of services, Group NBT's clients come from many industries and include well-known companies including over 30% of the FTSE 100.

Group NBT plc currently has over 290 employees worldwide, with offices in London, Cambridge, Copenhagen, New York, Nice, Munich, Zurich, Oslo, and Stockholm. With five market-leading brands, Group NBT plc is now made up of the following:

- **Envisional**; solutions offering a suite of services that protect businesses from online counterfeit activity, fraud, piracy and offer ongoing brand monitoring solutions.
- **NetBenefit**; providing high quality managed hosting services to SMEs in both the UK and continental Europe;
- **NetNames**: providing corporate domain name management to large organisations through its industry leading Platinum Service, which is now used by over 30% of the FTSE 100 and **Speednames Business** who offer the same service across northern Europe and the Scandics.
- **Easily.co.uk** and **Speednames.com**; top providers of cost effective web hosting and domain name services to European businesses and consumers.
- **Ascio**, which is responsible for the provision of domain name services indirectly through more than 300 partnerships. These partners primarily include telecom operators, web hosting companies, internet access providers and IP law firms.

Brief Overview

Due to our current success we are looking to recruit a product specialist to work with the Envisional team in the UK.

This role would include assisting in the deployment and delivery of new Discovery Engine client systems for delivery to the Analysis and Consultancy department. The product specialist would ensure the Analysis and Consultancy department has the tools and information available to carry out their jobs, and liaise with other departments internally to assist the company in reaching its goals.

Primary Activities and Responsibilities:

(Job role primarily includes, but is not limited to):

- Assisting in the deployment and delivery of new client systems.
- Online research using our proprietary software and public search tools such as

Google.

- Maintenance of templates/rules used for meta-searching and matching on specific sites.
- Involvement in Product Development, including rules and application development.

Background & Key Skills required:

- Excellent oral and written communication skills with a strong ability to write professional, commercial English essential
- Good knowledge of the Internet, including at least a basic understanding of the underlying technologies.
- Recent basic programming experience ie basic understanding of HTML and/or JavaScript essential.
- Must possess an inquiring mind, and be willing to learn new skills.
- A good degree would be desirable; A degree in scientific discipline would be particularly useful due to the learned analytical skills, but other candidates will be considered based on programming experience.
